Term

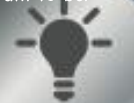

Autumn 2

COMMUNITY

OUR  
DRIVERS

POSSIBILITIES

MINDFULNESS  
& GROWTH

INITIATIVE

Our families will be involved in our topic right from the very start, helping us to recall our past memories and our life stories. We will invite people from our community into school to share their stories with us. We will also visit the local Elderly care home.

We will learn that it is possible to create the ending we would like for our life stories; becoming what we want to be when we grow up.

We will show curiosity when listening to other people's stories and pasts. We will ask question to find the answers we would like. We will celebrate each other's life stories. We will understand that if we are determined we can become anything we want to be.

We will show inquisitiveness to find out about our past stories and that of others in our local community. We will become more independent as we settle into Year 1.

I'll tell you my story ...

WOW!

Enterprise day!

What we dream to be when we grow up. Children to come dressed up in what they would like to be when they grown up. We will have visitors explaining what they do now they are grown.

EXPERIENCE

Elderly visitors from our community to visit us at school.

Toys from the past work shop.

CREATE

Visit to Radford Elderly care home to read them our life stories and find out about theirs.

### British Values

Respect - We will respect other people's life stories and know that we are all different.

Democracy - We will all have our thoughts, ideas and stories heard.

Individual liberty - We will choose to tell our stories the way we wish to do so.
